“Ship Simulator 2008” Ryan Plut

Ship Simulator 2008 is a revolutionary simulation system that puts users at the helm of some of the most varied and detailed ships to be found at sea. Members will have a chance to operate various ships in different tasks. Ship Simulator 2008 provides a stunning 3D environment, and a wide array of ship types - from massive cargo ships and ferries, to speedboats, yachts, hovercraft, tankers, water taxis and even the mighty *Titanic*. The waters you sail are also as varied as the ships, with newly added harbours such as Southampton (including the Solent), Marseille and San Francisco.

Lunch 1230 – 1330
Tour 1330 – 1600

C-Dory, Fluid Marine – Auburn, WA Host: Andy Harrison

C-Dory builds boats from 16' to 29' in a cruiser model.
